Medscape
 Regional Nodal Radiation in Early Breast Cancer Apr 7

There was a 1.6% improvement in overall survival in patients who were lymph node negative, a 2.7% improvement in those with one to three positive nodes, and a 4.5% improvement in those with four or more positive nodes. Now, this will not be (More...)

@DrSuneelDhand
 I'm excited to share that I took the galleritest, a multi-cancer early detection test. This is a cause that's near and dear to my heart and affects me and so many people I love. With a simple blood draw, Galleri screens for a "fingerprint" (More...)
